www.suttoncollege.ac.uk/earlybird

College Leadership

I started at the College as a sessional tutor in January 1990 and have been fortunate enough to be asked to lead the organisation since June 2014. After this long period of time, I am going to retire in December 2017.

It has been a fantastic privilege to lead the organisation and I am very pleased to be leaving the College in a good position with exciting possibilities opening up for the future.

I will be keeping you informed about the appointment of a successor to take Sutton College through the next challenging stages and am very confident that, together with the guidance of our supportive local authority, we will continue to provide a rich range of courses and develop further the excellent reputation that the College treasures.

Sutton Local Plan

I wanted to update you on the Sutton Local Plan. It is the draft framework that planning authorities will use when considering applications to develop parts of the local area. You may remember that the early plans failed to explicitly identify the College continuation in occupation of the Sutton Centre site.

The framework has now gone to the Inspector appointed who has received all the letters and points made. I am very grateful for all the support from students and the significant evidence that was produced.

The local authority is very proud of Sutton College and councillors and officers are very clear they do wish to see and expect to see a continuation of the College. It has been good to highlight the issues and I am confident we have made the relevant noises.

When we have more information we will let you know.

Many thanks

Jenny Sims

Health & Social Care/Childcare Recruitment Event

SATURDAY 10 JUNE, 12PM-2PM, SUTTON COLLEGE MAIN CENTRE

Meet local training providers, employers and find out about job and work placement opportunities in the Borough. This popular event gets bigger every year with more and more stalls and attendees so if you are interested in working in the care sector, this excellent event is not to be missed.
