

Google Classroom at Sutton College

For learners

What is Google Classroom?

Google Classroom is the most popular eLearning platform, giving learners and tutors a place online to communicate. It is here that your tutor will post important information about your class. For example; coursework, quizzes and feedback on the work you have completed and submitted. It is also a space for you to ask questions and talk to your fellow learners and tutor.

Google Classroom has many new features, including an app for mobile devices, support for video chat and more.

From 2020-21, Google Classroom will replace the previous VERA eLearning system for all learners.
