New courses in Art, Accounting, Computing, DIY, English & Maths, Fashion, Fitness, Floristry, Gardening, History, Photography, Teaching & more!

See [www.suttoncollege.ac.uk](http://www.suttoncollege.ac.uk) for details

### Dr George Rice Community Garden

Sutton College is proud to be involved with the Dr George Rice Community Garden project and last month a formal dedication of the garden took place. Dr George Rice was a celebrated African-American physician who worked in Sutton for over 50 years, from the mid 1880's. He worked at local schools for poor and orphaned children where he specialised in treating patients with Epilepsy. Dr Rice became District Medical Officer and Chief Vaccinator for the Sutton and Cheam areas.

Read how one of our students played a very special part in the event:

FREE

#### Illness & Absence

If you feel unwell, particularly with flu like symptoms, please do not attend College as we do have a large number of vulnerable students in the college.

If you are unable to attend class please [report your absence online](#) or call 020 8289 4700.

#### Christmas Closure

The College building will be closed to the public from 5pm Thursday 22 December.

Spring Term will start again from Monday 9th January but please check with your tutor for the exact date that you will return to class.

### Go Green this Spring - NEW Gardening & Environmental courses!

Whether you are green fingered or want to become more green we have a course for you in 2023.

The Spring Term brings [fantastic new courses](#) including our NEW Gardening courses plus our online Environmental Sustainability Level 3 BTEC Certificate too!
